

2010 ITS Minnesota Graduate Student Award Competition

Applications Due: February 5, 2010

ITS Minnesota, a state chapter of ITS America since 1995, is proud to announce up to **two graduate student awards of \$1250** per award. The competition is open to all graduate students in Minnesota, North Dakota, South Dakota, and Iowa.

The purpose of the graduate student award is to reward exceptional students for their interest in the transportation industry and intelligent transportation systems.

Intelligent Transportation Systems, or ITS, encompass a broad range of wireless and wire-line communications-based information, control and electronics technologies. When integrated into the transportation system infrastructure, and in vehicles themselves, these technologies help monitor and manage traffic flow, reduce congestion, provide alternate routes to travelers, enhance productivity, and save lives, time and money.

The award is based on ITS related work, and may comprise a paper, project, or research work done by the student.

Submit a cover letter, one-page resume, and copy of the paper, project, or research to Shawn Haag via email at haag0025@umn.edu. **Applications are due on February 5, 2010.**

A committee designated by the ITS Minnesota Board of Directors will select award recipients. Recipients will be recognized at the University of Minnesota ITSO Student Paper Conference Awards Luncheon on March 3, 2010. Awards will be presented the ITS Minnesota Annual Meeting on March 9, 2010 (see <http://www.itsmn.org/> for details). ITS Minnesota will provide complimentary registration for recipients to attend the ITS Minnesota Annual Meeting.
